<i>Name</i>	<i>Country</i>

4. The Committee recognizes the merits of the five candidates.

5. The Award Committee considers that the current version of the criteria for the selection of candidates needs to be adapted to the new conditions influencing the health field as well as the terminology currently utilized. Therefore, the Award Committee recommends that:

- a) The objective of the Award should be to recognize excellence in the management of health systems and services at the national, regional and international levels since this criteria better reflects PAHO's technical cooperation commitments. Contributions on the academic and research fields, although relevant, are of secondary importance.
- b) That the Executive Committee request the Secretariat to prepare a new version of the conditions and procedures to accurately evaluate the candidates' merits, and to be explicit on the point regarding the presentation of only one candidacy for each Member State.

6. The Award Committee recommends the Executive Committee adopt the following resolution.
