1. Introduction

Tobacco use is a major preventable cause of premature death and disease worldwide. Approximately 5.4 million people die each year due to tobacco-related illnesses – a figure expected to increase to more than 8 million a year by 2030. If current trends continue, tobacco use may kill a billion people by the end of this century. It is estimated that more than three quarters of these deaths will be in low- and middle-income countries¹. An efficient and systematic surveillance mechanism is essential to monitor and manage the epidemic.

The **Global Adult Tobacco Survey (GATS)**, a component of Global Tobacco Surveillance System (GTSS), is a global standard for systematically monitoring adult tobacco use and tracking key tobacco control indicators. GATS is a nationally representative household survey of adults 15 years of age or older using a standard core questionnaire, sample design, and data collection and management procedures that were reviewed and approved by international experts. GATS is intended to enhance the capacity of countries to design, implement and evaluate tobacco control interventions.

In order to maximize the efficiency of the data collected from GATS, a series of manuals has been created. These manuals are designed to provide countries with standard requirements as well as several recommendations on the design and implementation of the survey in every step of the GATS process. They are also designed to offer guidance on how a particular country might adjust features of the GATS protocol in order to maximize the utility of the data within the country. In order to maintain consistency and comparability across countries, following the standard protocol is strongly encouraged.

GATS manuals provide systematic guidance on the design and implementation of the survey.

1.1 Overview of the Global Adult Tobacco Survey

GATS is designed to produce national and sub-national estimates among adults across countries. The target population includes all non-institutionalized men and women 15 years of age or older who consider the country to be their usual place of residence. All members of the target population will be sampled from the household that is their usual place of residence.

GATS uses a geographically clustered multistage sampling methodology to identify the specific households that Field Interviewers will contact. First, a country is divided into Primary Sampling Units, segments within these Primary Sampling Units, and households within the segments. Then, a random sample of households is selected to participate in GATS.

The GATS interview consists of two parts: the *Household Questionnaire* and the *Individual Questionnaire*. The *Household Questionnaire* (household screening) and the *Individual Questionnaire* (individual interview) will be conducted using an electronic data collection device.

The GATS interview is composed of two parts: *Household Questionnaire* and *Individual Questionnaire*. These questionnaires are administered using an electronic data collection device.

¹ Mathers, C.D., and Loncar D. Projections of Global Mortality and Burden of Disease from 2002 to 2030. PLoS Medicine, 2006, 3(11):e442.

At each address in the sample, Field Interviewers will administer the *Household Questionnaire* to one adult who resides in the household. The purposes of the *Household Questionnaire* are to determine if the selected household meets GATS eligibility requirements and to make a list, or roster, of all eligible members of the household. Once a roster of eligible residents of the household is completed, one individual will be randomly selected to complete the *Individual Questionnaire*. The *Individual Questionnaire* asks questions about background characteristics; tobacco smoking; smokeless tobacco; cessation; secondhand smoke; economics; media; and knowledge, attitudes, and perceptions about tobacco.

1.2 Use of this Manual

This manual provides question by question instructions to the field interviewers for administering the GATS Core Household and Individual Questionnaires using the handheld computer administration. This chapter provides background information on the GATS. Next, the manual provides specific details for all of the core household and individual survey questions including purpose, instructions, and routing information. Note that GATS countries should modify this manual to match their country-adapted questionnaires.

2. Household Questionnaire

INTRO

[THE HOUSEHOLD SCREENING RESPONDENT MUST BE 18 YEARS OF AGE OR OLDER AND YOU MUST BE CONFIDENT THAT THIS PERSON CAN PROVIDE ACCURATE INFORMATION ABOUT ALL MEMBERS OF THE HOUSEHOLD.

IF NEEDED, VERIFY THE AGE OF THE HOUSEHOLD SCREENING RESPONDENT TO MAKE SURE HE/SHE IS 18 YEARS OF AGE OR OLDER.]

INTRO1

An important survey of adult tobacco use behavior is being conducted by the (FILL COUNTRY SPONSORING AGENCY) throughout (FILL COUNTRY NAME) and your household has been selected to participate.

All houses selected were chosen from a scientific sample and it is very important to the success of this project that each participates in the survey. All information gathered will be kept strictly confidential. I have a few questions to find out who in your household is eligible to participate.

Purpose: Provides introduction of the GATS survey to the household.

Instructions: The household screening interview should be completed by someone who is 18 years or older and lives in the household. You must be confident that this household member is able to provide accurate information about all of the people who live in the household. (The only exception is when a household does not have anyone 18 or older who lives there. Then you can conduct the household screening interview with someone who is younger than 18.)

Read the introduction to a household member that is 18 years or older. Answer any questions the household member may have about the survey and attempt to convince member to participate if he/she is hesitant.

HH1

First, I'd like to ask you a few questions about your household. In total, how many persons live in this household?

[INCLUDE ANYONE WHO CONSIDERS THIS HOUSEHOLD THEIR USUAL PLACE OF RESIDENCE]

_____ [RANGE: 0 – 50]

[IF HH1 = 00, GO TO NOELIGIBLE]

Purpose: Determines how many people live in the household.

Instructions: Ask question and record the total number of people who live in the household.

Anyone who considers the household to be their usual place of residence should be included. Although you will not formally verify that all household members consider the selected household to be their usual place of residence, if you are specifically asked whether someone should be considered a resident, you should use the guidelines provided on the following page.

The program will not let you enter an answer that is over 50. Enter 50 if the answer is higher.

If the answer is 0, the program will route you to NOELIGIBLE to end the interview (provided below). (The result code 201 "Completed Household Questionnaire, No One Selected" will be automatically selected in the Record of Calls by the Case Management System.)

NOELIGIBLE

[THERE ARE NO ELIGIBLE HOUSEHOLD MEMBERS.

THANK THE RESPONDENT FOR HIS/HER TIME.

THIS WILL BE RECORDED IN THE RECORD OF CALLS AS A CODE 201.]

GATS Target Population

The target population for GATS surveys should include all civilian, non-institutionalized men and women 15 years of age or older, and living in the included areas of the country, who meet GATS residency requirements at the country and household levels.

Individuals are viewed as residents of a GATS country if they are: (i) citizens of and residing in the country, or (ii) non-citizens living in the country, but who consider the country to be their **usual** country of residence (i.e., they have lived in the GATS country for at least half of the time during the 12 months prior to completing the *Household Questionnaire*).

Individuals aged 15 years of age or older, who are explicitly **excluded** from the survey, are those who, at the time that the *Household Questionnaire* is completed, are: (i) non-citizens visiting the country for a few weeks (e.g. tourists, in the country to see friends/relatives, etc.), (ii) citizens who indicate that their usual place of residence is on a military base, or (iii) citizens who are institutionalized—including people residing in hospitals, prisons, nursing homes, and other such institutions that will not be sampled in GATS.

Household Residence Guidelines

[COUNTRIES SHOULD UPDATE AS APPROPRIATE]

All civilian, non-institutionalized men and women of age 15 years of age or older in a sample household meet the household residence requirement if the sample household is considered to be their usual place of residence at the time that the *Household Questionnaire* is completed.

A usual member of a sample household is any person who has been normally living in the household or one who has no other residence. A person who has moved to the sample household recently is considered to be a member of that sample household if he/she does not plan to return to the old household. Similarly, a person who has recently moved out of the sample household with no intention to return is no longer considered a member of the sample household.

For household members with more than one residence, the “usual” place of residence means the residence where the household member spent at least half of the time in the past 12 months.

Some individuals who consider the sample household their usual residence may be temporarily living away from the sample household. Some common examples of this kind of household resident are: (i) students away at school and staying in a dormitory², (ii) family members currently living away at a vacation home, and (iii) laborers who are temporarily living where they are working.

Note that if these temporary absentees are randomly selected to complete an *Individual Questionnaire*, every possible effort should be made to complete the interview with them. They should **not** be arbitrarily (or even randomly) replaced by another eligible member of the household.

² Since school dormitories will not be included on the lists used to select households, but students temporarily living away from home are included in the GATS target population, we must consider persons living in these dormitories to be residents of the household of which they are a part where they are not in school.

HH2

How many of these household members are 15 years of age or older?

_____ [RANGE: 0 – 20]

[VALIDATION: HH2 <= HH1 (IF NOT, GO TO TooMany)]
[IF HH2 = 00, GO TO NOELIGIBLE]

TooMany

[YOU CAN'T/SHOULDN'T HAVE MORE PEOPLE >= 15 YEARS OLD THAN THERE ARE TOTAL HH MEMBERS; PLEASE DOUBLE CHECK THE ANSWERS SO FAR.]

[GO TO HH2]

Purpose: Determines how many people age 15 or older live in the household.

Instructions: Ask question and record the total number of people 15 years of age or older who live in the household.

Anyone who is age 15 or older and considers the household to be their primary place of residence should be included.

The program will not let you enter an answer that is over 20. Enter 20 if the answer is higher.

If the answer is 0, the program will route you to NOELIGIBLE to end the interview (provided below). (The result code 201 "Completed Household Questionnaire, No One Selected" will be automatically selected in the Record of Calls by the Case Management System.)

NOELIGIBLE

[THERE ARE NO ELIGIBLE HOUSEHOLD MEMBERS.

THANK THE RESPONDENT FOR HIS/HER TIME.

THIS WILL BE RECORDED IN THE RECORD OF CALLS AS A CODE 201.]

HH4both

I now would like to collect information about only these persons that live in this household who are 15 years of age or older.

Let's start listing them from oldest to youngest.

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: Read this introduction and start asking the next questions about the oldest person (that is 15 or older) in the household and move toward the youngest. Try and list everyone in the order of their age. (It is okay if the listing is not done in order, as the program will sort the household members by age before selecting a respondent.)

HH4a

What is the {FILL: oldest/next oldest} person's first name?

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: Ask for first name only. Used only for respondent selection purposes. Initials or nicknames can be used if more than one household member has the same first name or if the household screening respondent is reluctant to provide this information.

HH4b

What is this person's age?

[IF RESPONDENT DOESN'T KNOW, PROBE FOR AN ESTIMATE]

_____ [RANGE: 15 – 110]
[IF HH4b >= 15 and <=17, GO TO HH4c. OTHERWISE, GO TO HH4d]

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: If the household screening respondent does not know the age, probe for an estimate.

The allowable age range in the program is from 15 to 110. If the reported age is less than 15, this household member should not be included on the roster. If needed, back-up to correct the number of household members age 15 or older.

If the age is reported as greater than 110, enter 110.

Routing: If the reported age is 15-17, the program will ask for month and year of date of birth.

HH4c

What is the month of this person's date of birth?

- 01 1
- 02 2
- 03 3
- 04 4
- 05 5
- 06 6
- 07 7
- 08 8
- 09 9
- 10 10
- 11 11
- 12 12
- DON'T KNOW .. 77
- REFUSED 99

HH4cYEAR

What is the year of this person's date of birth?

[IF DON'T KNOW, ENTER 7777
IF REFUSED, ENTER 9999]

_____ [RANGE: 1900 – 2000, 7777, 9999]

[IF HH4c = 77 OR HH4c = 99 OR HH4cYear = 7777 OR HH4cYear = 9999, THEN GO TO HH4d]
[VALIDATION: CALCULATED DATE OF BIRTH >= 15 YEARS OLD (IF NOT, GO TO ValidateAge)]
[ELSE, GO TO HH4d]

ValidateAge

[AGE CALCULATED FROM BIRTH MONTH AND BIRTH YEAR IS LESS THAN 15. PLEASE DOUBLE CHECK THESE ANSWERS.]

[GO TO HH4c]

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: If the reported age of a household member is 15 to 17, you will ask for date of birth in order to verify the age.

The date of birth should calculate to 15 or older—if it does not, you will receive a prompt that the household member should not be included on the roster.

If the household screening respondent does not know or refuses to provide the month and/or year, the program will continue to HH4d.

HH4d

Is this person male or female?

MALE..... 1

FEMALE..... 2

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: Ask the question and record the gender (male or female) of the household member. Do not make an assumption about the gender from the name of the household member.

HH4e

Does this person currently smoke tobacco, including (FILL APPROPRIATE COUNTRY EXAMPLES: cigarettes, cigars, pipes)?

- YES 1
NO 2
DON'T KNOW.. 7
REFUSED 9
-

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: Ask question and record answer.

EDITROSTERINTRO

[IF YOU NEED TO REVIEW THE ROSTER, SELECT “ROSTER” FROM THE TOOLS MENU.

TAP THE BACK BUTTON IF YOU NEED TO MAKE CHANGES.

TAP THE NEXT BUTTON TO SELECT THE RESPONDENT.]

Purpose: To collect information on all household members age 15 or older. The household roster is used for selecting a respondent to complete the individual interview.

Instructions: After asking the questions about each household member age 15 or older, the program will ask you if you need to review or make changes.

If you need to review the roster, select the “Tools” menu and then the “Roster” menu. Here you can view the completed roster.

If corrections are needed, you will need to back-up to make changes (e.g., add or delete a person).

Selecting the “Next” button will randomly select a respondent to complete the individual interview. After doing this, you will not be able to back-up to make changes to the roster.

HH5

[NAME OF THE SELECTED ELIGIBLE PERSON IS:

{FILL SELECTED HH MEMBER'S FIRST NAME}

ASK IF THE SELECTED RESPONDENT IS AVAILABLE AND IF SO, PROCEED TO THE INDIVIDUAL QUESTIONNAIRE.

IF THE SELECTED RESPONDENT IS NOT AVAILABLE, MAKE AN APPOINTMENT AND RECORD IT AS A COMMENT ON RECORD OF CALLS.]

Purpose: Selects household member to participate in the individual interview.

Instructions: A household member from the household roster will be randomly selected by the program for the individual interview. (The result code 200 "Completed Household Questionnaire, One Person Selected" will be automatically selected in the Record of Calls by the Case Management System.)

Ask to interview the selected household member. Attempt to set an appointment for the individual interview if the selected respondent is not available for the interview at that time.

3. Individual Questionnaire

Consent

CONSENT1

[SELECT THE APPROPRIATE AGE CATEGORY BELOW. IF NEEDED, CHECK THE AGE OF THE SELECTED RESPONDENT FROM THE “CASE INFO” SCREEN IN THE TOOLS MENU.]

- 15-17 1 [GO TO CONSENT2]
18 OR OLDER 2 [GO TO CONSENT5]
EMANCIPATED MINOR (15-17) .. 3 [GO TO CONSENT5]
-

Purpose: Determines the appropriate routing to obtain consent to participate in the survey.

Instructions: The name and age of the selected respondent will be listed in the case details for the household questionnaire. Select the appropriate age category.

If the selected respondent is 15 to 17 years old, you will need to obtain consent from a parent or guardian in addition to the respondent. If there is no one living in the household that is 18 years of age or older, select the EMANCIPATED MINOR (15-17) category. Parental/Guardian consent is not required for these situations.

Routing:

If the answer is 15-17, the program will go to CONSENT2 (consent from parent/guardian and respondent).

If the answer is 18 OR OLDER, the program will go to CONSENT5 (consent from individual respondent).

If the answer is EMANCIPATED MINOR (15-17), the program will go to CONSENT5 (consent from individual respondent).

CONSENT2

Before starting the interview, I need to obtain consent from a parent or guardian of [NAME OF RESPONDENT] and from [NAME OF RESPONDENT].

[IF BOTH SELECTED RESPONDENT AND PARENT/GUARDIAN ARE AVAILABLE, CONTINUE WITH INTERVIEW.

IF PARENT/GUARDIAN IS NOT AVAILABLE, BREAK-OFF INTERVIEW AND SCHEDULE AN APPOINTMENT TO RETURN.

IF MINOR RESPONDENT IS NOT AVAILABLE, CONTINUE WITH OBTAINING PARENTAL CONSENT.]

Purpose: Determines whether the parent/guardian is available to provide consent.

Instructions: Read the introduction filling in the name of the selected respondent (provided in the case details of the household questionnaire).

If the selected respondent and parent/guardian are both available at the same time, you will continue with the interview (CONSENT3) to obtain consent from both at the same time.

If the parent/guardian is not available to provide consent, you should break-off the interview and schedule an appointment to return when the parent/guardian will be able to provide consent.

If the selected respondent (minor) is not available but the parent/guardian is available, continue with obtaining consent from the parent/guardian at this time. You will obtain the consent from the selected respondent (minor) during the scheduled appointment to conduct the interview.

CONSENT3

[READ THE FOLLOWING TO THE PARENT/GUARDIAN AND SELECTED RESPONDENT (IF AVAILABLE):]

I am working with [Name of Organization]. This institution is doing a survey about tobacco use in [Country]. This information will be used for planning public health programs by the Ministry of Health.

Your household and [NAME OF RESPONDENT] have been selected at random. [NAME OF RESPONDENT] responses are very important to us and the community. These answers will represent many other persons. The interview will last approximately 30 minutes. [NAME OF RESPONDENT] participation in this survey is entirely voluntary. If you or [NAME OF RESPONDENT] decide not to participate, you will not lose any services that you would normally receive. There is no penalty if you do not participate.

The information that [NAME OF RESPONDENT] will provide will be kept strictly confidential and [NAME OF RESPONDENT] will not be identified by his/her responses. Personal information will not be shared with anyone else, not even other family members including you. [NAME OF RESPONDENT] can withdraw from the survey at any time, and may refuse to answer any question.

We don't expect any risks to [NAME OF RESPONDENT] or you from participating in this survey. There will not be any direct benefits to [NAME OF RESPONDENT] or you, but the results will help the Ministry of Health plan public health programs for the country.

We will leave the necessary contact information with you. If you have any questions about this survey or [NAME OF RESPONDENT] rights as a participant, you can contact the telephone numbers listed.

If you agree with [NAME OF RESPONDENT]'s participation in this survey, we will conduct a private interview with him/her.

[ASK PARENT/GUARDIAN:] Do you agree with [NAME OF RESPONDENT]'s participation?

YES 1 [GO TO CONSENT4]
NO 2 [END INTERVIEW]

Purpose: Obtains consent from the parent/guardian of the selected minor respondent.

Instructions: Read this text to the parent/guardian and the selected respondent (if present) at the same time. Ask the parent/guardian if he/she agrees for the selected respondent to participate. Answer any questions the parent/guardian or selected respondent may have about the survey and attempt to convince them to participate if they are hesitant.

You can provide the household with a list of contact information in order to obtain further information about the survey.

Routing:

If the answer is YES, the program will go to CONSENT4.

If the answer is NO, the program will go to the end of the interview. You should then select code 304 (refusal) in the Record of Calls in the Case Management System.

CONSENT4

Purpose: Collects age of respondent if he/she does not know his/her date of birth.

Instructions: Question A03 will be asked if the respondent does not know or refuses to provide the month and/or year of date of birth in question A02a/b. If the respondent is unsure of his/her age, probe to determine an estimate. For question A03a, select “YES” if the answer was an estimate or select “NO” if the answer was not an estimate.

If the respondent refuses, try to convince him/her by saying that in order to continue the interview, he/she will need to provide an age. If the respondent still will not provide an age, you will need to break-off the interview and record result code 302 “Completed Part of Individual Questionnaire” in the Record of Calls of the Case Management System. Include a description of what occurred and talk to your supervisor to discuss any future action with this case.

If the respondent’s age is calculated to be less than 15 years old, you will be prompted by the program and you should confirm the age with the respondent. If the age is not correct, back-up to change it. If the age is correct (less than 15), select “Next” to go to I01 to end the interview. (The result code 403 “Selected Individual Was Later Determine to Be Survey Ineligible” will be automatically selected in the Record of Calls by the Case Management System.)

Purpose: The A06 series of questions determines whether the respondent's household has any of the various items.

Instructions: Read stem question in A06a and ask each item part (A06a through A06j). Note that the stem question in parentheses for A06b through A06j does not need to be repeated for each item – only read if needed.

An item that is not working still should be included as a household possession.

Note that these items (a through j) are core. Countries might add items to this list.

Section B. Tobacco Smoking

B00

I would now like to ask you some questions about *smoking* tobacco, including (FILL APPROPRIATE COUNTRY EXAMPLES: cigarettes, cigars, pipes).

Please do not answer about smokeless tobacco at this time.

Purpose: Section B includes questions about tobacco smoking.

Instructions: Read introduction and administer Section B. Note that respondent should not be answering about smokeless tobacco during Section B as this is covered in Section C. This instruction will not be included if Section C is not being administered.

Note that the examples are adjusted for the specific country.

B01

Do you *currently* smoke tobacco on a daily basis, less than daily, or not at all?

- DAILY 1 → GO TO B04
LESS THAN DAILY 2
NOT AT ALL 3 → GO TO B03
DON'T KNOW 7 → GO TO NEXT SECTION
REFUSED 9 → GO TO NEXT SECTION
-

Purpose: Determines the current tobacco smoking status of the respondent.

Instructions: Ask question and select only one answer.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide his/her current smoking status.

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Routing:

If the answer is DAILY, questions B02 and B03 will be skipped and the program will go to question B04.

If the answer is LESS THAN DAILY, the program will go to question B02.

If the answer is NOT AT ALL, question B02 will be skipped and the program will go to question B03.

If the answer is DON'T KNOW or REFUSED, the program will skip to the next section.

B02

Have you smoked tobacco daily in the past?

- YES 1 → GO TO B08
NO 2 → GO TO B10a
DON'T KNOW 7 → GO TO B10a
REFUSED 9 → GO TO B10a
-

Purpose: Determines if the respondent smoked tobacco on a daily basis in the past.

Instructions: This question will be asked only to those respondents who said they currently smoke less than daily in question B01. Ask question and select only one answer.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to say whether he/she smoked daily in the past, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Routing:

If the answer is YES, the program will go to question B08.

If the answer is NO, DON'T KNOW, or REFUSED, the program will go to question B10a.

B03

In the *past*, have you smoked tobacco on a daily basis, less than daily, or not at all?

[IF RESPONDENT HAS DONE BOTH “DAILY” AND “LESS THAN DAILY” IN THE PAST, CHECK “DAILY”]

DAILY 1 → GO TO B11
LESS THAN DAILY 2 → GO TO B13a
NOT AT ALL 3 → GO TO NEXT SECTION
DON'T KNOW 7 → GO TO NEXT SECTION
REFUSED 9 → GO TO NEXT SECTION

Purpose: Determines the respondent’s previous tobacco smoking status if he/she is not a current smoker.

Instructions: This question will be asked if the respondent says he/she does not smoke at all in question B01. Ask question and select only one answer. Note that if a respondent says he/she smoked daily and less than daily in the past, select the answer for DAILY.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide his/her past smoking status, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Rare instances of smoking or experimental smoking (tried once or twice in lifetime) should be counted in the NOT AT ALL category.

Routing:

If the answer is DAILY, the program will go to question B11.

If the answer is LESS THAN DAILY, the program will go to question B13a.

If the answer is NOT AT ALL, DON'T KNOW, or REFUSED, the rest of Section B will be skipped and the program will go to Section C (or the next applicable section after Section B).

B04

[IF B05 = 99, GO TO B06a]

[R'S AGE - B05 = AGE OF DAILY SMOKING INITIATION]

[IF AGE OF DAILY SMOKING INITIATION = 1 - 4, GO TO CheckDailyAge1]

[IF AGE OF DAILY SMOKING INITIATION IS <= 0, GO TO ValDailyAge1B]

[ELSE, GO TO B06a]

Purpose: Determines the age of the respondent when he/she first started smoking tobacco on a daily basis.

Instructions: B04 is asked to respondents who currently smoke tobacco daily. Ask question and record answer. If the respondent does not know the answer or refuses, record "99" and then the program will go to question B05.

B05 determines when the respondent first started smoking tobacco on a daily basis if he/she does not know how old he/she was. If the respondent reports the answer in fraction of years (e.g., two years and two months), round up or down to the nearest whole number (round up for "a half" or "6 months"). If the respondent reports a range, probe for a specific answer.

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Validation Check: Validation check screens will appear when the reported age of daily smoking initiation is: 1) between 1 and 4 years old, 2) greater than the respondents age (from B04), or 3) calculated to be 0 or negative (from B05).

ValDailyAge1A appears when the reported age of daily smoking initiation is greater than the respondent's age (from B04). You will need to go back to correct either the age reported in B04 or the respondent's age if reported incorrectly in Section A.

ValDailyAge1B appears when the reported age of daily smoking initiation is calculated to be 0 or negative (from B05). You will need to go back to correct either the number of years reported in B05 or the respondent's age if reported incorrectly in Section A.

[RESPONDENT HAS REPORTED SMOKING NO PRODUCTS DAILY, BUT SAID HE/SHE WAS A DAILY SMOKER

GO BACK TO CORRECT]

[GO TO B06a]

Purpose: The B06 series of questions determines the number of tobacco products that the respondent smokes each day (or each week).

Instructions: Asked to respondents who currently smoke tobacco daily. Ask the stem question in B06a and each item part (B06a through B06g). Note that the stem questions in parentheses for B06b through B06g do not need to be repeated for each item – only read if needed.

For B06a through B06g, if the respondent answers that he/she smokes one of the products but not every day, you should enter “888” into the program. Then, the program will immediately administer a follow-up question (for that specific tobacco product) asking about per week usage.

If the respondent reports an answer in packs or cartons, it is important to probe to determine a total number. You should not enter the number of packs or cartons. You may need to assist the respondent in determining the number (of the tobacco product of interest) that are in each pack or carton and calculating the total number.

If the respondent refuses to answer a question, enter “999” for refused.

For item part g, if respondent reports a type not already listed, you will be prompted to record the type in B06g1.

Note that the item parts (tobacco products) are adjusted for the specific country.

QxQ: IF REFUSED, ENTER 999.

Validation Check: A validation check screen will appear when the reported number of manufactured cigarettes smoked daily in B06a (or weekly in B06a1) is 1 to 3 or 100 to 200, in order to review the following: 1) For 1 to 3, confirm that the total number of cigarettes smoked daily (or weekly) is being entered rather than number of packs (or cartons), and 2) For 100-200, confirm that the high amount being entered is correct.

If the answers to B06a through B06g all are 0, a check screen will appear to indicate the respondent has reported smoking no products daily, but was classified as a daily smoker.

[IF AGE OF DAILY SMOKING INITIATION IS <= 0, GO TO ValDailyAge2B]

[ELSE, GO TO B10a]

Purpose: Determines the age of the respondent when he/she first started smoking tobacco on a daily basis.

Instructions: B08 is asked to respondents who currently smoke tobacco less than daily, but have smoked tobacco on a daily basis in the past. Ask question and record answer. If the respondent does not know the answer or refuses, record "99" and then the program will go to question B09.

B09 determines when the respondent first started smoking tobacco on a daily basis if he/she does not know how old he/she was. If the respondent reports the answer in fraction of years (e.g., two years and two months), round up or down to the nearest whole number (round up for "a half" or "6 months"). If the respondent reports a range, probe for a specific answer.

Note that the item parts (tobacco products) are adjusted for the specific country.

QxQ Screen: IF REFUSED, ENTER 999.

Validation Check: A validation check screen will appear when the reported number of manufactured cigarettes smoked weekly in B10a is 1 to 3 or 100 to 200, in order to review the following: 1) For 1 to 3, confirm that the total number of cigarettes smoked weekly is being entered rather than number of packs (or cartons), and 2) For 100-200, confirm that the high amount being entered is correct.

If the answers to B10a through B10g all are 0, a check screen will appear to indicate the respondent has reported smoking no products, but was classified as a less than daily smoker.

Routing: The rest of Section B will be skipped, and the interview sequence will now go to Section C (or the next applicable section after Section B).

[IF AGE OF DAILY SMOKING INITIATION = 1 - 4, GO TO CheckDailyAge3]

[IF AGE OF DAILY SMOKING INITIATION IS <= 0, GO TO ValDailyAge3B]

[ELSE, GO TO B13a]

Purpose: Determines the age of the respondent when he/she first started smoking tobacco on a daily basis.

Instructions: B11 is asked to respondents who do not currently smoke, but have smoked tobacco on a daily basis in the past. Ask question and record answer. If the respondent does not know the answer or refuses, record "99" and then the program will go to question B12.

B12 determines when the respondent first started smoking tobacco on a daily basis if he/she does not know how old he/she was. If the respondent reports the answer in fraction of years (e.g., two years and two months), round up or down to the nearest whole number (round up for "a half" or "6 months"). If the respondent reports a range, probe for a specific answer.

QxQ Screen: Daily means smoking at least one tobacco product every day or nearly every day over a period of a month or more.

Validation Check: Validation check screens will appear when the reported age of daily smoking initiation is: 1) between 1 and 4 years old, 2) greater than the respondents age (from B11), or 3) calculated to be 0 or negative (from B12).

ValDailyAge3A appears when the reported age of daily smoking initiation is greater than the respondent's age (from B11). You will need to go back to correct either the age reported in B11 or the respondent's age if reported incorrectly in Section A.

ValDailyAge3B appears when the reported age of daily smoking initiation is calculated to be 0 or negative (from B12). You will need to go back to correct either the number of years reported in B12 or the respondent's age if reported incorrectly in Section A.

Purpose: Determines when the respondent stopped smoking.

Instructions: The B13 questions are asked to respondents who do not currently smoke tobacco but have smoked in the past. You will ask the question in B13a and record the answer using only one unit (years, months, weeks, or days) or select the appropriate category if the answer is less than one day (less than 24 hours). You will enter the unit in B13a and the number in the next screen (B13b).

Do not count instances where the respondent might have smoked a tobacco product on a rare occasion (e.g., one cigar at a wedding). We are interested in knowing the time frame from when the respondent stopped smoking tobacco on a regular basis.

If the answer is reported as a fraction (e.g., one year and two months), either convert the amount to a different unit (e.g., one year and two months = 14 months) or round up or down to the nearest whole number (round up for a half).

Routing: If the answer to B13a/b is less than one year (less than 12 months), the program will go to question B14. If the answer to B13a/b is one year or more (12 months or more), the rest of Section B will be skipped and the program will go to Section C (or the next applicable section after Section B).

B14

B18g1

Please specify what you used to try to stop smoking.

Purpose: The B18 series of questions determines if the respondent used any of the listed methods to try to stop smoking tobacco in the past 12 months.

Instructions: Asked to respondents who do not currently smoke tobacco, but have quit smoking within the past 12 months. Ask stem question in B18a and each item part (B18a through B18g). Note that the stem question in parentheses for B18b through B18g does not need to be repeated for each item – only read if needed.

For item part g, if respondent reports a method not already listed, you will be prompted to record it in B18g1.

Note that the methods and examples are adjusted for the specific country.

Section C. Smokeless Tobacco

C00

The next questions are about using smokeless tobacco, such as (FILL APPROPRIATE COUNTRY EXAMPLES: snuff, chewing tobacco, and dip). Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Purpose: Section C includes questions about using smokeless tobacco.

Instructions: Read introduction to respondent and administer Section C. Note that the examples are adjusted for the specific country.

C01

Do you *currently* use smokeless tobacco on a daily basis, less than daily, or not at all?

[IF RESPONDENT DOES NOT KNOW WHAT SMOKELESS TOBACCO IS, EITHER PRESENT A SHOWCARD OR READ DEFINITION FROM QXQ SCREEN]

- DAILY 1 → GO TO C04
LESS THAN DAILY 2
NOT AT ALL 3 → GO TO C03
DON'T KNOW 7 → GO TO NEXT SECTION
REFUSED 9 → GO TO NEXT SECTION
-

Purpose: Determines if the respondent currently uses smokeless tobacco.

Instructions: Ask question and select only one answer.

If the respondent says he/she does not know what smokeless tobacco is, you should read the definition from the QxQ screen (and provide a showcard if applicable). It is important not to select the “DON’T KNOW” answer for this situation. If a respondent does not know what smokeless tobacco is, most likely he/she is not using smokeless tobacco.

QxQ Screen: Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

Routing:

If the answer is DAILY, questions C02 and C03 will be skipped and the program will go to question C04.

If the answer is LESS THAN DAILY, the program will go to question C02.

If the answer is NOT AT ALL, question C02 will be skipped and the program will go to question C03.

If the answer is DON’T KNOW or REFUSED, the program will skip to the next section.

C02

Have you used smokeless tobacco daily in the past?

- YES 1 → GO TO C08
NO 2 → GO TO C10a
DON'T KNOW 7 → GO TO C10a
REFUSED 9 → GO TO C10a
-

Purpose: Determines if the respondent used smokeless tobacco on a daily basis in the past.

Instructions: This question will only be asked to those respondents who said they currently use smokeless tobacco less than daily in question C01. Ask question and select only one answer.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to say whether he/she used smokeless tobacco daily in the past, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

Routing:

If the answer is YES, the program will go to question C08.

If the answer is NO, DON'T KNOW, or REFUSED, the program will go to question C10a.

C03

In the *past*, have you used smokeless tobacco on a daily basis, less than daily, or not at all?

[IF RESPONDENT HAS DONE BOTH “DAILY” AND “LESS THAN DAILY” IN THE PAST, CHECK “DAILY”]

- DAILY 1 → GO TO C11
LESS THAN DAILY 2 → GO TO C13a
NOT AT ALL 3 → GO TO NEXT SECTION
DON'T KNOW 7 → GO TO NEXT SECTION
REFUSED 9 → GO TO NEXT SECTION
-

Purpose: Determines if the respondent used smokeless tobacco in the past if he/she currently does not use smokeless tobacco.

Instructions: This question will be asked if the respondent says he/she does not currently use smokeless tobacco at all in question C01. Ask question and select only one answer. Note that if a respondent says he/she used smokeless tobacco on a daily basis and less than daily in the past, select DAILY.

If the respondent answers “don’t know,” probe for an answer as the respondent should be able to provide his/her past smokeless tobacco use status, unless the respondent truly cannot remember (e.g., due to memory loss).

QxQ Screen: Smokeless tobacco is tobacco that is not smoked, but is sniffed through the nose, held in the mouth, or chewed.

Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

Rare instances of smokeless tobacco use or experimental use (tried once or twice in lifetime) should be counted in the NOT AT ALL category.

Routing:

If the answer is DAILY, the program will go to question C11.

If the answer is LESS THAN DAILY, the program will go to question C13a.

If the answer is NOT AT ALL, DON'T KNOW, or REFUSED, the rest of Section C will be skipped and the program will go to Section D.

[ELSE, GO TO C06a]

Purpose: Determines the age of the respondent when he/she first started using smokeless tobacco on a daily basis.

Instructions: C04 is asked to respondents who currently use smokeless tobacco daily. Ask question and record answer. If the respondent does not know the answer or refuses, record "99" and then the program will go to question C05.

C05 determines when the respondent first started using smokeless tobacco on a daily basis if he/she does not know how old he/she was. If the respondent reports the answer in fraction of years (e.g., two years and two months), round up or down to the nearest whole number (round up for "a half" or "6 months"). If the respondent reports a range, probe for a specific answer.

QxQ Screen: Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

[RESPONDENT HAS REPORTED USING NO SMOKELESS PRODUCTS DAILY, BUT SAID HE/SHE WAS A DAILY USER

GO BACK TO CORRECT]

[GO TO C06a]

Purpose: The C06 series of questions determines the number of times a day (or week) a respondent uses various smokeless tobacco products.

Instructions: Asked to respondents who currently use smokeless tobacco on a daily basis. Ask stem question in C06a and each item part (C06a through C06e). Note that the stem question in parentheses for C06b through C06e does not need to be repeated for each item – only read if needed.

For C06a through C06e, if the respondent answers that he/she uses one of the products but not every day, you should enter “888” into the program. Then, the program will immediately administer a follow-up question (for that specific smokeless tobacco product) asking about per week usage.

If the respondent refuses to answer a question, enter “999” for refused.

For item part e, if respondent reports a type not already listed, you will be prompted to record the type in C06e1.

Note that the item parts (smokeless tobacco products) are adjusted for the specific country.

QxQ Screen: IF REFUSED, ENTER 999.

Validation Check: If the answers to C06a through C06e all are 0, a check screen will appear to indicate the respondent has reported using no smokeless tobacco products daily, but was classified as a daily smokeless tobacco user.

[RESPONDENT HAS REPORTED USING NO SMOKELESS PRODUCTS, BUT SAID HE/SHE WAS A LESS THAN DAILY USER

GO BACK TO CORRECT]

[GO TO C10a]

Purpose: The C10 series of questions determines the number of times per week a respondent uses various smokeless tobacco products.

Instructions: Asked to respondents who currently use smokeless tobacco less than daily. Ask the stem question in C10a and each item part (C10a through C10e). Note that the stem question in parentheses for C10b through C10e does not need to be repeated for each item – only read if needed.

For C10a through C10e, if the respondent says he/she has used one of the products within the past 30 days but uses less than once per week (e.g., once per month), enter “888.”

If the respondent refuses to answer a question, enter “999” for refused.

For item part e, if respondent reports a type not already listed, you will be prompted to record the type in C10e1.

Note that the item parts (smokeless tobacco products) are adjusted for the specific country.

QxQ Screen: IF REFUSED, ENTER 999.

Validation Check: If the answers to C10a through C10e all are 0, a check screen will appear to indicate the respondent has reported using no smokeless tobacco products, but was classified as a less than daily smokeless tobacco user.

Routing: The rest of Section C will be skipped, and the interview sequence will now go to Section D.

C11

How old were you when you first started using smokeless tobacco *daily*?

[IF DON'T KNOW OR REFUSED, ENTER "99"]

[IF C12 = 99, GO TO C13a]

[R'S AGE – C12 = AGE OF DAILY SMOKELESS INITIATION]

[IF AGE OF DAILY SMOKELESS INITIATION = 1 - 4, GO TO CheckDailyAgeSL3]

[IF AGE OF DAILY SMOKELESS INITIATION IS <= 0, GO TO ValDailyAgeSL3B]

[ELSE, GO TO C13a]

Purpose: Determines the age of the respondent when he/she first started using smokeless tobacco on a daily basis.

Instructions: C11 is asked to respondents who do not currently use smokeless tobacco, but have used it on a daily basis in the past. Ask question and record answer. If the respondent does not know the answer or refuses, record "99" and then the program will go to question C12.

C12 determines when the respondent first started using smokeless tobacco on a daily basis if he/she does not know how old he/she was. If the respondent reports the answer in fraction of years (e.g., two years and two months), round up or down to the nearest whole number (round up for "a half" or "6 months"). If the respondent reports a range, probe for a specific answer.

QxQ Screen: Daily means using smokeless tobacco at least one time every day or nearly every day over a period of a month or more.

Validation Check: Validation check screens will appear when the reported age of daily smokeless use initiation is: 1) between 1 and 4 years old, 2) greater than the respondents age (from C11), or 3) calculated to be 0 or negative (from C12).

Purpose: Validation check screens for reported age of daily smokeless use initiation (C11/C12).

Instructions:

CheckDailyAgeSL3 appears when the reported age of daily smokeless use initiation is between 1 and 4 years old. If not correct, back-up to change the answer. If correct, select next to continue with the interview.

ValDailyAgeSL3A appears when the reported age of daily smokeless use initiation is greater than the respondent's age (from C11). You will need to go back to correct either the age reported in C11 or the respondent's age if reported incorrectly in Section A.

ValDailyAgeSL3B appears when the reported age of daily smokeless use initiation is calculated to be 0 or negative (from C12). You will need to go back to correct either the number of years reported in C12 or the respondent's age if reported incorrectly in Section A.

Purpose: Determines when the respondent stopped smokeless tobacco.

Instructions: The C13 questions are asked to respondents who do not currently use smokeless tobacco but have used it in the past.

You will ask the question in C13a and record the answer using only one unit (years, months, weeks, or days) or select the appropriate category if the answer is less than one day (less than 24 hours). You will enter the unit in C13a and the number in the next screen (C13b).

Do not count instances where the respondent might have used a smokeless tobacco product on a rare occasion (e.g., one pinch of snuff at a wedding). We are interested in knowing the time frame from when the respondent stopped using smokeless tobacco on a regular basis.

If the answer is reported as a fraction (e.g., one year and two months), either convert the amount to a different unit (e.g., one year and two months = 14 months) or round up or down to the nearest whole number (round up for a half).

Routing: If the answer to C13a/b is less than one year (less than 12 months), the program will go to routing item C13Comp. If the answer to C13a/b is one year or more (12 months or more), the rest of Section C will be skipped and the program will go to Section D.

Instructions: Asked if the respondent visited a doctor or health care provider in the past 12 months. Ask question and select only one answer.

Routing: If the answer is NO or REFUSED, the program will go to question D16.

D15

During any visit to a doctor or health care provider in the past 12 months, were you advised to stop using smokeless tobacco?

- YES 1
NO 2
REFUSED 9
-

Purpose: Determines whether a respondent was advised by a doctor or health care provider (during any visit in the past 12 months) to stop using smokeless tobacco.

Instructions: Asked if a doctor or health care provider during any visit in the past 12 months asked the respondent if he/she uses smokeless tobacco. Ask question and select only one answer.

D16

Which of the following best describes your thinking about quitting smokeless tobacco? I am planning to quit within the next month, I am thinking about quitting within the next 12 months, I will quit someday but not within the next 12 months, or I am not interested in quitting?

- QUIT WITHIN THE NEXT MONTH..... 1
THINKING WITHIN THE NEXT 12 MONTHS..... 2
QUIT SOMEDAY, BUT NOT NEXT 12 MONTHS. 3
NOT INTERESTED IN QUITTING 4
DON'T KNOW 7
REFUSED 9
-

Purpose: Determines if the respondent is planning or thinking about quitting smokeless tobacco in the future.

Instructions: Ask question and select only one answer that comes closest to the respondent's answer.

Section E. Secondhand Smoke

E01

I would now like to ask you a few questions about smoking in various places.

Which of the following best describes the rules about smoking inside of your home: Smoking is allowed inside of your home, smoking is generally not allowed inside of your home but there are exceptions, smoking is never allowed inside of your home, or there are no rules about smoking in your home?

- ALLOWED 1
NOT ALLOWED, BUT EXCEPTIONS 2
NEVER ALLOWED 3 → GO TO E04
NO RULES 4 → GO TO E03
DON'T KNOW 7 → GO TO E03
REFUSED 9 → GO TO E03

Purpose: Section E includes questions about exposure to secondhand smoke. This item determines whether smoking is allowed in the respondent's home.

Instructions: Read introduction, ask question and select only one answer.

QxQ Screen: This question is asking about the rules for inside the respondent's home. This only includes enclosed areas of the home – the respondent should not include areas outside of the home including patios, porches, etc. that are not fully enclosed.

Routing:

If answer is NEVER ALLOWED, the program will go to question E04.

If answer is NO RULES, DON'T KNOW, OR REFUSED, the program will go to question E03.

E02

Inside your home, is smoking allowed in every room?

- YES 1
NO 2
DON'T KNOW .. 7
REFUSED 9
-

Purpose: Determines whether smoking is allowed in every room inside of the respondent's home.

Instructions: Asked if the respondent reports that smoking is allowed in his/her home in question E01.
Ask question and select only one answer.

QxQ Screen: This question is asking about the rules for inside the respondent's home. This only includes enclosed areas of the home – the respondent should not include areas outside of the home including patios, porches, etc. that are not fully enclosed.

E03

How often does *anyone* smoke inside your home? Would you say daily, weekly, monthly, less than monthly, or never?

- DAILY 1
 - WEEKLY 2
 - MONTHLY 3
 - LESS THAN MONTHLY 4
 - NEVER 5
 - DON'T KNOW 7
 - REFUSED 9
-

Purpose: Determines the frequency of anyone smoking inside the respondent's home.

Instructions: Asked if the respondent reports that smoking is allowed in his/her home in question E01 (or answered NO RULES, DON'T KNOW, or REFUSED to E01). Ask question and select only one answer. The respondent should select one of the response categories that comes closest to his/her situation.

QxQ Screen: This question is asking about inside the respondent's home. This only includes enclosed areas of the home – the respondent should not include areas outside of the home including patios, porches, etc. that are not fully enclosed.

E04

Do you currently work outside of your home?

- YES 1
NO/DON'T WORK..... 2 → GO TO E09
REFUSED 9 → GO TO E09
-

Purpose: Determines whether the respondent works outside of the home.

Instructions: Ask question and select only one answer. If the respondent says he/she does not currently work, select NO/DON'T WORK.

Routing: If the answer is NO/DON'T WORK or REFUSED, the program will go to question E09.

E05

Do you usually work indoors or outdoors?

- INDOORS..... 1 → GO TO E07
OUTDOORS 2
BOTH 3 → GO TO E07
REFUSED 9
-

Purpose: Determines if the respondent usually works inside or outside.

Instructions: Ask question and select only one answer. If the respondent says he/she works both indoors and outdoors, select BOTH.

Routing: If the answer is INDOORS or BOTH, the program will go to question E07.

E06

Are there any indoor areas at your work place?

- YES 1
NO 2 → GO TO E09
DON'T KNOW .. 7 → GO TO E09
REFUSED 9 → GO TO E09
-

Purpose: Determines whether there are any indoor areas at the respondent's workplace if he/she reports usually working outside. Attempts to capture situations where a respondent primarily works outside but sometimes there is an indoor area where workers can go.

Instructions: Asked to respondents who report usually working outdoors in question E05. Ask question and select only one answer.

Routing: If the answer is NO, DON'T KNOW, or REFUSED, the program will go to question E09.

E07

Which of the following best describes the indoor smoking policy where you work: Smoking is allowed anywhere, smoking is allowed only in some indoor areas, smoking is not allowed in any indoor areas, or there is no policy?

- ALLOWED ANYWHERE..... 1
 - ALLOWED ONLY IN SOME INDOOR AREAS.... 2
 - NOT ALLOWED IN ANY INDOOR AREAS 3
 - THERE IS NO POLICY 4
 - DON'T KNOW 7
 - REFUSED 9
-

Purpose: Determines the smoking policy for indoor workplaces where respondent works.

Instructions: Asked if the respondent reports that he/she usually works indoors or if there are indoor places at work. Ask question and select only one answer that comes closest to the respondent's answer.

E08

During the past 30 days, did anyone smoke in indoor areas where you work?

- YES 1
NO 2
DON'T KNOW.. 7
REFUSED 9
-

Purpose: Determines if anyone smoked in indoor areas where the respondent works in the past 30 days, regardless of the indoor smoking policy.

QxQ Screen: The respondent should answer yes if he/she saw somebody smoke or smelled the smoke inside the indoor areas where he/she works.

This question is asking about enclosed indoor areas, not outside areas (such as a courtyard within a complex).

Instructions: Ask question and select only one answer.

E09

During the past 30 days, did you visit any government buildings or government offices?

- YES 1
NO 2 → GO TO E11
DON'T KNOW .. 7 → GO TO E11
REFUSED 9 → GO TO E11

E10

Did anyone smoke inside of any government buildings or government offices that you visited in the past 30 days?

- YES 1
NO 2
DON'T KNOW .. 7
REFUSED 9

Purpose: Determines whether anyone smoked in indoor places that the respondent may have visited in the past 30 days.

Instructions: Question E09 is asked to determine if the respondent visited the place. If the answer is YES, the follow-up question E10 is asked to determine if anyone smoked inside during the respondent's visit in the past 30 days.

QxQ Screen: The respondent should answer yes if he/she saw somebody smoke or smelled the smoke inside the place of interest.

This question is asking about enclosed indoor areas, not outside areas (such as a courtyard within a complex).

Routing: If the answer to E09 is NO, DON'T KNOW, or REFUSED, the program will go to question E11.

E11

During the past 30 days, did you visit any health care facilities?

- YES 1
NO 2 → GO TO E13
DON'T KNOW .. 7 → GO TO E13
REFUSED 9 → GO TO E13

E12

Did anyone smoke inside of any health care facilities that you visited in the past 30 days?

- YES 1
NO 2
DON'T KNOW .. 7
REFUSED 9

Purpose: Determines whether anyone smoked in indoor places that the respondent may have visited in the past 30 days.

Instructions: Question E11 is asked to determine if the respondent visited the place. If the answer is YES, the follow-up question E12 is asked to determine if anyone smoked inside during the respondent's visit in the past 30 days.

QxQ Screen: The respondent should answer yes if he/she saw somebody smoke or smelled the smoke inside the place of interest.

This question is asking about enclosed indoor areas, not outside areas (such as a courtyard within a complex).

Routing: If the answer to E11 is NO, DON'T KNOW, or REFUSED, the program will go to question E13.

E13

During the past 30 days, did you visit any restaurants?

- YES 1
NO 2 → GO TO E15
DON'T KNOW .. 7 → GO TO E15
REFUSED 9 → GO TO E15
-

E14

Did anyone smoke inside of any restaurants that you visited in the past 30 days?

- YES 1
NO 2
DON'T KNOW .. 7
REFUSED 9
-

Purpose: Determines whether anyone smoked in indoor places that the respondent may have visited in the past 30 days.

Instructions: Question E13 is asked to determine if the respondent visited the place. If the answer is YES, the follow-up question E14 is asked to determine if anyone smoked inside during the respondent's visit in the past 30 days.

QxQ Screen: The respondent should answer yes if he/she saw somebody smoke or smelled the smoke inside the place of interest.

This question is asking about enclosed indoor areas, not outside areas (such as a courtyard within a complex).

Routing: If the answer to E13 is NO, DON'T KNOW, or REFUSED, the program will go to question E15.

E15

During the past 30 days, did you use any public transportation?

- YES 1
NO 2 → GO TO E17
DON'T KNOW .. 7 → GO TO E17
REFUSED 9 → GO TO E17

E16

Did anyone smoke inside of any public transportation that you used in the past 30 days?

- YES 1
NO 2
DON'T KNOW .. 7
REFUSED 9

Purpose: Determines whether anyone smoked in indoor places that the respondent may have visited in the past 30 days.

Instructions: Question E15 is asked to determine if the respondent visited the place. If the answer is YES, the follow-up question E16 is asked to determine if anyone smoked inside during the respondent's visit in the past 30 days.

QxQ Screen: The respondent should answer yes if he/she saw somebody smoke or smelled the smoke inside the place of interest.

This question is asking about enclosed indoor areas, not outside areas (such as a courtyard within a complex).

Routing: If the answer to E15 is NO, DON'T KNOW, or REFUSED, the program will go to question E17.

E17

Based on what you know or believe, does breathing other people's smoke cause serious illness in non-smokers?

- YES 1
NO 2
DON'T KNOW.. 7
REFUSED 9
-

Purpose: Determines whether the respondent thinks secondhand smoke can cause serious illness in non-smokers.

Instructions: Ask question and select only one answer.

Section F. Economics – Manufactured Cigarettes

F00Comp

[(IF B01 = 1 OR 2) AND (B06a OR B10a = 1 - 200 OR 888), GO TO F01a. OTHERWISE GO TO NEXT SECTION]

Purpose: Section F includes questions about the last purchase of manufactured cigarettes. This item determines the appropriate routing sequence for the interview.

Instructions: The program will determine the appropriate routing based on previous questions. You will not see this screen.

Routing:

If the respondent is a current smoker (B01 = 1 or 2) and the respondent reported that he/she smokes manufactured cigarettes (B06a or B10a = 1 - 200 or 888), the program will go to question F01.

If the respondent is not a current smoker or the respondent does not smoke manufactured cigarettes, Section F will be skipped and the interview will go to Section G.

F01a

The next few questions are about the last time you purchased cigarettes for yourself to smoke.

The last time you bought cigarettes for yourself, how many cigarettes did you buy?

[GO TO F02]

F01dOther

How many cigarettes were in each {F01c}?

[IF REFUSED, ENTER 999]

_____ [RANGE: 1 – 800, 999]

[GO TO F02]

Purpose: Determines the quantity of cigarettes that were purchased the last time the respondent bought cigarettes for him/herself. This question (along with F02) will be used to calculate how much money was spent on cigarettes.

Instructions: The F01 questions are asked to respondents who are current smokers of manufactured cigarettes. You will ask question in F01a and record the answer using only one unit (cigarettes, packs, cartons, other). You will enter the unit in F01a and the number in the next screen (F01b). You will record the unit type in F01c if OTHER is selected in F01a. If the answer was reported in packs, cartons, or other, the program will then go to F01d to ask the respondent how many cigarettes were in each.

It is important to record the correct unit and corresponding number. For example, if the unit CIGARETTES is selected in F01a, you need to enter the total number of cigarettes purchased in F01b, not the number of packs or cartons.

QxQ Screen: Only report number of cigarettes that the respondent purchased to smoke. Do not include cigarettes purchased by a vendor for resale.

Routing:

If the respondent answers that he/she has never bought cigarettes for him/herself in F01a, the rest of Section F will be skipped and the program will go to Section G.

If the respondent refuses to answer question F01a, the program will go to question F03.

F02

In total, how much money did you pay for this purchase?

[IF DON'T KNOW OR REFUSED, ENTER 999]

_____ [RANGE: 1 – 500, 999]
[ALLOW DECIMAL]

Purpose: Determines how much money the respondent paid for the last purchase of cigarettes by the respondent. This question (along with the F01 questions) will be used to calculate how much money was spent on cigarettes.

Instructions: Ask question and enter in amount of purchase. A decimal (.) is allowed to be entered but a comma (,) is not. This needs to be emphasized in training for countries that use a comma (,) for reporting monetary amounts.

Note that the type of currency will be adjusted for the specific country (including the range and Don't Know/Refused value).

QxQ Screen: Only report money paid for cigarettes that the respondent purchased to smoke. Do not include cigarettes purchased by a vendor for resale.

F03

[SPECIFY BRAND]

Purpose: Determines the cigarette brand purchased by the respondent the last time he/she purchased cigarettes for him/herself.

Instructions: Ask question and check all categories that apply. You will record the brand in F03a if OTHER is selected in F03.

Note that the categories are adjusted for the specific country.

QxQ Screen: Only report brand of cigarettes that the respondent purchased to smoke. Do not include cigarettes purchased by a vendor for resale.

F04

[IF F04 = 10, GO TO F04a. OTHERWISE GO TO NEXT SECTION]

F04a

[SPECIFY LOCATION]

Purpose: Determines the place where the respondent made his/her last purchase of cigarettes for himself/herself.

Instructions: Ask question but do not read response categories. Select only one answer that comes closest to the respondent's answer. You will record the location in F04a if OTHER is selected in F04.

Note that the categories are adjusted for the specific country.

Section G. Media (Structure #1 – Asking About Only One Product)

G01intro

The next few questions ask about your exposure to the media and advertisements in the last 30 days.

Purpose: Section G includes questions about the respondent's exposure to the media and advertisements about tobacco in the last 30 days. Structure #1 is used for countries that only ask about one tobacco product (e.g., cigarettes) in Section G.

Instructions: Read the introduction to the respondent and go to the next question.

[IF G01e = 1, GO TO G01e1. OTHERWISE GO TO G02.]

G01e1

Please specify where.

Purpose: The G01 series of questions determines if the respondent noticed information or news stories from various sources about the dangers of smoking cigarettes or that encourages quitting in the past 30 days

Instructions: Ask stem question in item G01a and each item part (G01a through G01e). Note that the stem question in parentheses for G01b through G01e does not need to be repeated for each item – only read if needed.

For item part e, if the respondent reports a source not already listed, you will be prompted to record it in G01e1. We do not want to include health warnings on cigarette packages for this question because we specifically ask about health warnings in a later question.

Note that the item parts are adjusted for the specific country.

QxQ Screen: If the respondent says he/she did not do the activity in the past 30 days, select the NOT APPLICABLE category but do not offer this category to the respondents.

Purpose: Determines if the respondent noticed any health warnings on cigarette packages in the past 30 days, and if yes, whether the warning labels on cigarette packages caused current smokers to think about quitting in the past 30 days.

Instructions: Ask questions and select only one answer.

G03 is only asked if the respondent is a current smoker (B01 = 1 or 2) and noticed the health warnings on cigarette packages in the past 30 days.

Routing: For G02, if the answer is NO, REFUSED, or if the respondent says he/she did not see any cigarette packages in the past 30 days, the program will go to question G04a. If the answer is YES and the respondent currently smokes tobacco (B01 = 1 or 2), the program will go to question G03. If the answer is YES and respondent is not a current smoker, the program will go to question G04a.

Purpose: The G04 series of questions determines if the respondent has seen advertisements or signs promoting cigarettes in various places in the past 30 days.

Instructions: Ask stem question in item G04a and each item part (G04a through G04k). Note that the stem question in parentheses for G04b through G04k does not need to be repeated for each item – only read if needed.

Some of the questions may be automatically skipped by the program if the answers were recorded as NOT APPLICABLE in G01 for the same items (e.g., television, radio, billboards, newspapers or magazines). For example, if in G01b, the respondent says he/she did not watch television in the past 30 days, we will not ask G04b about noticing cigarettes advertisements on television.

For item part k, if the respondent reports a place not already listed, you will be prompted to record it in G04k1.

Note that item 'a' should be included for all countries but the other items are adjusted for the specific country.

G201e2a

Please specify where.

Purpose: The G201 series of questions determines if the respondent noticed information or news stories from various sources about the dangers of tobacco products or that encourages quitting in the past 30 days

Instructions: Structure #2 is set-up so that you will ask about each tobacco product of interest (e.g., cigarettes and then smokeless tobacco) for each source. Note that the stem question in parentheses does not need to be repeated again for each additional tobacco product after it is read for cigarettes – only read if needed.

For item parts e1 or e2, if the respondent reports a source not already listed, you will be prompted to record it in G201e1a or G201e2a. We do not want to include health warnings on cigarette or other tobacco packages for these questions because we specifically ask about health warnings in later questions.

Note that the item parts (sources and tobacco products) are adjusted for the specific country.

QxQ Screen: If the respondent says he/she did not do the activity in the past 30 days, select the NOT APPLICABLE category but do not offer this category to the respondents.

-

Purpose: Determines if the respondent noticed any health warnings on cigarette packages in the past 30 days, and if yes, whether the warning labels on cigarette packages caused current smokers to think about quitting in the past 30 days.

Instructions: Ask questions and select only one answer.

G203 is only asked if the respondent is a current smoker (B01 = 1 or 2) and noticed the health warnings on cigarette packages in the past 30 days.

Routing: For G202, if the answer is NO, REFUSED, or if the respondent says he/she did not see any cigarette packages in the past 30 days, the program will go to question G202a. If the answer is YES and the respondent currently smokes tobacco (B01 = 1 or 2), the program will go to question G203. If the answer is YES and respondent is not a current smoker, the program will go to question G202a.

-

Purpose: Determines if the respondent noticed any health warnings on smokeless tobacco products in the past 30 days, and if yes, whether the warning labels on smokeless tobacco products caused current smokeless tobacco users to think about quitting in the past 30 days.

Instructions: Ask questions and select only one answer.

G203a is only asked if the respondent is a current smokeless tobacco user (C01 = 1 or 2) and noticed the health warnings on smokeless tobacco products in the past 30 days.

Routing: For G202a, if the answer is NO, REFUSED, or if the respondent says he/she did not see any smokeless tobacco products in the past 30 days, the program will go to question G204a1. If the answer is YES and the respondent currently uses smokeless tobacco (C01 = 1 or 2), the program will go to question G203a. If the answer is YES and respondent is not a current user, the program will go to question G204a1.

Purpose: The G204 series of questions determines if the respondent has seen advertisements or signs promoting tobacco products in various places in the past 30 days.

Instructions: Structure #2 is set-up so that you will ask about each tobacco product of interest (e.g., cigarettes and then smokeless tobacco) for each location. Note that the stem question in parentheses does not need to be repeated again for each additional tobacco product after it is read for cigarettes – only read if needed.

Some of the questions may be automatically skipped by the program if the answers were recorded as NOT APPLICABLE in G201 for the same items (e.g., television, radio, billboards, newspapers or magazines). For example, if in G201b1, the respondent says he/she did not watch television in the past 30 days, we will not ask G204b1 about noticing cigarettes advertisements on television.

For item parts k1 or k2, if the respondent reports a place not already listed, you will be prompted to record it in G204k1a or G204k2a.

Note that the item parts (places and tobacco products) are adjusted for the specific country.
