\* Includes information from all CAREC member countries.

\*\* 1987 cases are vaccine-related.

\*\*\* Eleven cases reported in 1988 had onset in 1987.

Weekly distribution is updated with final case classification.

Note: Cumulatives for 1987 include only confirmed cases, whereas 1988  
cumulatives also include probable cases. Of the 588 cases reported  
so far in 1988, only 205 have been confirmed. The increased number  
of probable cases reported in 1988, reflects increased awareness  
and surveillance activities in all countries.
