# Questions for TAC

## I. PRIORITY ACTIONS

1. **Prioritization** -do you agree with our strategic priorities for 08/09 ? Did we / are we missing something important? (in light of resource constraints)
  2. Delivery approaches - how can we make **Technical support** at country level **most relevant and effective**?
  3. Strategic positioning – what should **we** focus on given the **partner landscape/priorities** ?
  4. How best can we **integrate** into existing services, while **ensuring quality and specificity** ?  
Contextualize HIV as chronic disease? (Exceptionalism vs mainstreaming, where should we settle on the continuum?)
  5. Resource scenario – how can we make **best use of existing resources**? And how can we best mobilize additional resources?
  6. Where should we go from here?  
What should be **absolute priorities and focus for 2010/11**? (non-negotiables..)
