

Background information

To help countries protect people from developing severe disease from pandemic influenza H1N1 infection, the World Health Organization (WHO) is coordinating the distribution of donated pandemic influenza vaccine to 95 countries. This document is an update on efforts to mobilize resources, ensure a sufficient supply of prequalified vaccines, support country readiness and deploy vaccines and ancillary products to countries.

Mobilizing resources

Governments, foundations and manufacturers have offered contributions of vaccines, ancillary products (such as syringes and safety boxes) and finances to support the donation initiative.

Current situation

WHO has received pledges of approximately 200 million doses of vaccine, 70 million syringes and US\$48 million for operations.

Overview of resource mobilization (millions)

| Resource | Need | Pledge ¹ | Committed ² | Gap ³ |
|-------------------|--|---------------------|------------------------|------------------|
| Vaccines (doses) | 200 | 200 | 114.7 ⁴ | n/a |
| Syringes | 200 | 70 | 45 | 130 |
| Safety boxes | 2 | 0.5 | 0.5 | 1.5 |
| US\$ (global) | 62.6 | 48.1 | 42.3 | 14.5 |
| US\$ (in-country) | In most cases, countries require resources to deploy vaccines in the country and conduct vaccination campaigns. The precise financial needs and available resources are currently being identified and gaps in funding will be reported in future updates. | | | |

¹ Not all pledged vaccines will be available for the 2010 donation initiative.

² As per signed agreements with donors.

³ Is equal to the difference between needs and pledges.

⁴ Australia, Belgium, CSL Ltd., France, GSK SA, MedImmune, Norway, Sanofi Pasteur SA, USA.

Preparing countries to receive vaccines

WHO and partners are assisting all 95 countries to receive and use vaccines. Before countries receive donated vaccines, they complete three steps: 1) request donated vaccines, 2) sign an agreement accepting the terms and conditions of support and 3) develop a national vaccine deployment plan.

Current situation (95 countries)

- 92 of the 95 countries have requested vaccine donations.
- 49 countries have signed agreements with WHO.
- 29 countries have finalized a National Deployment Plan.

Progress of national deployment plans

| Stage of preparation | Number of countries of 95 |
|-------------------------------------|---------------------------|
| Compete and final | 29 |
| Being refined - expected in Q1 2010 | 5 ⁵ |

⁵ 1 of these is complete and undergoing final WHO endorsement.

Supplying vaccines to countries

After a country meets the criteria for receiving donated pandemic vaccine, WHO deploys donated vaccines to the country.

Current situation

WHO with partners has delivered vaccines and/or ancillary products to the following countries and is preparing to supply several others:

All deliveries

| Country | Products | Arrived in country ⁶ |
|-------------|---------------------------|---------------------------------|
| Afghanistan | Syringes and safety boxes | 04 January 2010 |
| Azerbaijan | Vaccines and ancillaries | 08 January 2010 |
| Cambodia | Syringes and safety boxes | 05 February 2010 |
| El Salvador | Syringes and safety boxes | 11 February 2010 |
| Indonesia | Syringes and safety boxes | 26 January 2010 |
| Lao PDR | Syringes and safety boxes | 22 January 2010 |
| Mongolia | Vaccines and ancillaries | 07 January 2010 |
| Nicaragua | Syringes and safety boxes | 29 January 2010 |
| Sri Lanka | Safety boxes and syringes | 01 February 2010 |
| Timor-Leste | Syringes and safety boxes | 08 January 2009 |
| Togo | Syringes and safety boxes | 27 January 2010 |

⁶ Date is for latest arrival in cases of multiple shipments.

Vaccine and ancillary deliveries expected in February

| Country | Doses | Country | Doses |
|--------------|-----------|-------------------|------------------|
| *Afghanistan | 500,000 | *Papua New Guinea | 700,000 |
| Cambodia | 300,000 | Philippines | 1,900,000 |
| *Cuba | 1,124,000 | Solomon Islands | 55,000 |
| *DPR Korea | 476,500 | *Sri Lanka | 385,000 |
| *El Salvador | 136,000 | *Togo | 132,000 |
| Fiji | 85,800 | Tonga | 10,000 |
| *Lao PDR | 600,600 | Vanuatu | 25,000 |
| *Kenya | 730,000 | Honduras | 140,000 |
| Kiribati | 10,000 | Nicaragua | 110,000 |
| Nauru | 1,000 | | |
| Total | | | 7,420,900 |

*Vaccine is in preparation for shipment pending regulatory or other outstanding clearance.

Prequalification of pandemic vaccines WHO only supplies vaccines that have been reviewed by a team of WHO experts and deemed to meet international quality standards.

To date 8 pandemic influenza A (H1N1) vaccines from the following manufacturers have been prequalified: GlaxoSmithKline Biologicals SA (2); Sanofi Pasteur SA (2); Novartis AG (3); CSL Ltd. (1).

8 other pandemic influenza A (H1N1) vaccines are currently in the pipeline for prequalification: MedImmune USA (1), Green Cross Korea (2), Serum Institute of India (2), Baxter Austria (1), Panacea (1), Sanofi France (1).
