April 24th

Country attendees will meet in the morning of the 24th to develop or modify their strategic intervention for their identified community leading to CFC, based on learning from plenary sessions. Discussion should include detail of their interventions (oral health packages), barriers to be overcome, resource implications and cooperative solutions leading to successful actions.

In the afternoon, countries will meet in their groupings to discuss their country approaches and exchange information on strategic interventions to achieve CFC. Each group will select at least two examples for the plenary presentation. In addition, the groups will discuss the working draft of the final workshop declaration.

- **Group One:** Saskia Estupiñán-Day, George Weber, Christopher Fox (IADR), Peter Cooney
